THE BLACK WARRIOR.

One of the Schemes of John W. Pearson and A. P. Minear.

A Chronicle reporter on Friday interviewed Guthrie Conaway and listened to a new and doleful chapter in the history of Arizona quartz mining as conducted by John W. Pearson, of Oakland, and A. P. Minear, two gentlemen not universally esteemed in this vicinity. The gist of Mr. Conaway's revelations is as follows: On March 24th Mr. Minear employed Mr. Conaway and ten others to proceed to the Black Warrior mine, near Prescott, and commence developments on the property, Pearson, Minear & Co., agreeing to pay transportation, traveling expenses, etc. The party started with money enough to reach Dos Palmas—345 miles distant from the mine—being promised a further remittance at that place; but after anxiously waiting there eighteen days for the promised remittance Conaway was sent back here to interview the company. On arrival, Conaway says he found that his party had been deceived and that the company was on the eve of a grand collapse. Persuasion and threats failed to bring a dollar to the rescue of the impecunious squad at Dos Palmas, and Conaway now seeks redress through making the facts public.

The reporter then interviewed Mr. Minear and Superintendent Wessel, the original owner of the property, and found Conaway's statement to be true. Wessel lays the blame on Minear and Pearson, who have failed to come to the front with a portion of the purchase money, and said last evening that the Black Warrior Mining Company had "fizzled." Assets, a quartz mill held for freight on the Colorado river, a triangular fight among the Trustees, and eleven distressed and deceived miners at Dos Palmas. From the belligerent tone of foreman Conaway last evening, work for the undertaker may be expected. Pearson claims that he has already sacrificed $20,000 in the scheme. The whole matter bears the old and familiar marks of a genuine Minear and Pearson job.

Short Route to Sacramento.

"Joseph Pipes of Pipesville," writing to the Call from Benicia, says that one thousand men are now building the Martinez and Oakland road, which within the next four months will run for five or six miles along the water's edge, directly in front of Benicia; and it is considered certain that the great overland road from Sacramento, via Suisun, will reach deep water at Benicia, and there connect with the direct road to Oakland, thus avoiding the ninety foot grade in the hills near Vallejo and saving over sixty miles in distance as against the present Stockton route.

TELEGRAPHIC BREVITIES.

Captain George Baker died at Hudson (N. Y.), yesterday, aged 85. He is believed to have been the oldest Free Mason in the United States.

Last night two wood choppers' cabins in the mountains, near Whitehaven, Pa., were washed away by a sudden flood, and six laborers were drowned.

General William E. Lathrop, aged 89, died at Rochester, yesterday. He was a conspicuous Mason for 60 years, and commander of the Grand Commandery of the United States.

It is reported on good authority that Mr. Bennett's yacht, Dauntless, has been sold to a gentleman in California, and will soon fit out for San Francisco, via Cape Horn. The price paid is said to have been $10,000.

A temperance organization was formed in Washington yesterday, under the name of "Mrs. Rutherford B. Hayes Temperance Society." Resolutions were adopted endorsing the sentiments of Mrs. Hayes in regard to the use of intoxicating liquors at State dinners, and similar occasions.

The charges of maladministration recently preferred against B F. Potts, Governor of Montana, coupled with an earnest appeal from the chief Republican authorities of the Territory for his removal from office, were supplemented by additional strong papers placed in the hands of the President yesterday. It is believed that Governor Potts will be suspended or notified that his resignation would be accepted.

Thomas B. Williams, formerly a stock broker of San Francisco, committed suicide at St. Louis yesterday, by shooting himself through the head at half past nine o'clock. His wife was divorced from him seven years ago. He came to St. Louis about a week ago from the Hot Springs, where he had been for his health, and attempted to affect a reconciliation with his wife with a view to re-marriage, but failing, he blew his brains out.

SAN FRANCISCO BREVITIES.

Hon. S. B. Conover, ex-Governor of Florida will arrive this evening.

Lieutenant Kireanoff and Sub-Lieutenant Feltsein, of the Russian navy, are at the Palace.

Henry A. Fox, a native of Massachusetts, and for seven years a Deputy in the Assessor's Office, committed suicide last evening in a fit of remorse.

The Society for the Prevention of Cruelty to Animals have resolved "that the practice of tying cart horses to the rear end of the carts preceding them is cruel and inhuman, and should be promptly suppressed, and that this society will forthwith instruct and authorize its officers and agents to take immediate steps to abate this evil."

The steamship Alaska, upon her arrival yesterday morning from China and Japan, had the yellow flag displayed from the fore, and dropped anchor in quarantine, off Alcatraz. Small-pox, it appears, is epidemic at Hongkong, and soon after leaving that port two cases of this dread disease were discovered among the Chinese passengers, of whom the steamer has 950, the largest consignment of Mongolians for a year past.

ARTIFICIAL STONE PAVEMENT,
Schillinger's Patent.

The undersigned is the sole and exclusive owner of Schillinger's Patent for the State of California. Said patent was granted to John J. Schillinger, July 19th, 1870 and was re issued May 2d 1871. The said Patent has been repeatedly sustained and damages and costs inflicted upon infringers of it by the Courts. The following are the claims of the Patent, viz

1 A concrete pavement laid in detached blocks or sections substantially in the manner shown and described

2 The arrangement of tar paper or its equivalent between adjoining blocks of concrete, substantially as and for the purposes set forth. All property owners having artificial stone pavements laid in detached blocks or sections are infringing one or both of the claims of said patent, as are also the parties laying such pavements, and every property holder is hereby notified that he will be prosecuted for every infringement of said patent in which he participates

The great success of this pavement has induced many irresponsible persons to infringe the patent, and at the same time wrong their employers by contracting to lay the pavements and then doing inferior jobs

The undersigned is prepared to lay sidewalks, garden walks, carriage drives, floors, etc

Presidential Election.

The excitement over the last Presidential election having died away, the possibility of another close election every occurring does not seem to interest the public press to a very great extent just now. At least, we find but few advocates for any of the numerous plans that were proposed for a way out of the difficulty. The people at large have a lively sense of the dangers they so recently passed through, and the sooner Congress secures the country from the possibility of a recurrence of such political disturbances, the better it will be for the country. There is a probability that the amendment recommended by President Hayes in his inaugural address, that the Presidential term be extended to six years, with ineligibility of the incumbent, will be acted upon at the approaching extra session; and while the question of amending the Constitution is up for discussion, the more important one, of the method of choosing the President, should receive earnest attention. The Presidential Elector system is too defective, whatever merit there may have been in it a hundred years ago. Like many other old methods, it has outgrown its usefulness. It does not permit of a full expression of the people. Under its cumbersome machinery, a candidate receiving the lowest number of popular votes may be legally elected; and in the event of a choice in the college, a House of Representatives elected more than two years previous and not reflecting the political sentiment of the time, may choose the President. Nor do the people ever again wish to see a contested election left to the uncertainties of chance. A plan which seems to meet with much favor is that which allows the people to vote directly for the candidates, without the senseless intervention of Presidential electors, and each State to be entitled to the same number of electoral votes to be divided in each State between the candidates in proportion to the popular votes they may respectively receive. We see in this plan none of the objections which have been urged against other proposed methods.

Growing Great.

Old Californians returning to San Francisco after a few years' absence express the greatest surprise and admiration at the wonderful growth of that city. During the last ten years the changes that have occurred have been marvelous. There has been a continual tearing down of wooden houses and two-story and three-story brick buildings in the business portion of the city to make room for larger structures of brick and stone. Where a few years ago were nothing but sandhills in the then distant and almost inaccessible suburbs, are now spacious paved streets lined with handsome residences. The people of the entire coast look to San Francisco for almost all kinds of supplies, and the result has been that manufactures have increased to an immense extent, thus creating employment for the thousands of mechanics and laboring men who have flocked thither from all parts of the world. We notice in a recent dispatch from New York that ex-Secretary McCulloch has been giving to the public the benefit of his observations on the present prosperity and prospects of San Francisco. He, as others have, finds cause for "abundant wonder in the extraordinary growth of that city, and for abundant hope of its future as one of the great capitals of the world." Every intelligent citizen of Oakland takes pride in the prosperity of San Francisco for as the latter flourishes, so thrives this, the home of the thousands of its busy artisans, merchants and professional men.

Another Important Land Sale.

The half block on the west side of Broadway was sold about six years ago by the Congregational Society for $65,000. It was covered with wooden stores at a cost of about $10,000. These stores have since paid about 1 per cent a month on the whole investment. This block was sold again last week for $100,000. The seller is understood to be H. D. Bacon and the buyers Bartlett, Doe and others. It is rumored that a brick block of stores will soon take the place of the frame buildings.

The New York Times, in a seven column report on this season's wheat crop, credits California with only half a crop, and predicts that the effect, together with the bad condition of the stock market, will be disastrous to the State. The outlook is almost always worse than the outcome. We shall continue to take our gold and silver crop out of the bowels of the earth, and if our surface crops do not turn out good (as we know they won't), we still expect to realize handsomely from them, by reason of the war in Europe.

Russia is mobilizing an immense army for the destruction of Turkey, and will, as the Tribune predicted a week ago, make the attack on the Asiatic line. Roumania will take sides with Russia from necessity, if not from choice, and, as Turkey has a formidable army in the field, the struggle is likely to prove a long and bloody one.

The contest over the Louisiana Governorship is virtually settled. The troops are to be withdrawn from the State House at New Orleans to-morrow, and Packard retires from the field.

Governor Pillsbury, of Minnesota, has issued a very eloquent thanksgiving proclamation, appointing Thursday next as a day of prayer against the grasshoppers.

There are eighty-two children in the Good Templars' Home, at Vallejo—the largest number they have ever had.

NOTES AND EXCERPTS.

Vermont personal: If the young man who sat in the chair where a lady had left a dish of maple sugar to cool at the festival the other evening, will return the saucer, he will save himself further interruption.

Prominent European capitalists have been negotiating for some time, and at last successfully, with the Land Commissioners of Florida for $8,000,000 worth of orange lands. They intend to bring into the State 2,000 or 3,000 hardy farmers from England, Germany, France, and Italy.

Mr. John T. Raymond played Col. Sellers at Lynn the other night, and an ardent temperance man called on Col. Sellers after the play and urged him to sign the pledge. The cold water advocate said the Colonel played his part to perfection until he got drunk, and then he made a confounded old fool of himself. The Colonel smiled, and during the next hour he "smiled" several times.

The bust of Joseph Mazzini, soon to be set up in the Central Park, was procured at very little cost. Turini, the sculptor, modelled the cast for what it cost him, the founder and workmen labored at half the usual rates, and an Italian marble cutter will furnish the Connecticut granite pedestal for the cost of quarrying. In penny and five or ten cent subscriptions, $2,800 have already been raised among the Italians of New York.

It is Mrs. Mary Clemmer's opinion that the size of the fourteen ears and seven noses is something remarkable, and also makes that observation palatable by saying that "You never saw a man who amounted to anything for action who had a little pinched-up nose, ears, or mouth." Speaking of Attorney-General Devens, she declares that he is reported to have said to a visitor: "You see in me the biggest fool in Massachusetts. I left a place that suited me exactly for one that does not suit me at all."

Herr Krupp, of Essen, has issued a memorandum to his workingmen, dilating on the present stagnation of business, and the short hours necessitated by the restriction of the market. Herr Krupp exhorts his men to submit with patience to the passing slackness and reduced wages, and points to the conduct of the laboring classes in England, under like circumstances, as an example not to follow. England has had its period of industrial activity and prosperity. "England has grown great and powerful by her industry. Then her workingmen have formed trades' unions, and struck work for the purpose of enforcing higher wages. The consequence has been that the work of England has to a great extent been carried abroad. German industry has been benefited by this mistake of the English workingmen. That ought to be a warning to us. Were we to follow their bad example our industry would, like theirs, be transferred to other countries."

The Williams glee club gave a concert in New York on Wednesday evening, and rather astonished their hearers by the melody they brought forth and the peculiar songs they sung. The World doubts if they venture even to sing some of the songs within the gray walls of the old college, and it inquires, "What may a staid Berkshire faculty be supposed to think in case they are awakened somewhere about the hour of an unsuspected midnight by a song like this?"

O, the bulldog on the bank,
O, the bullfrog in the pool,
Says the bulldog to the bullfrog,
"You darned old water fool."

O, the bulldog stooped to catch him,
And the snapper caught his paw;
And the pollywog died a-laughing
To see him wag his jaw.

Says the elephant to the owl,
"Oh, what'll you have to drink?"
"I thank you, since you are so kind,
I'll take a bottle of ink."

Pharaoh's daughter on the bank,
Little Moses in the pool,
Fish him out with a casting-net
And send him off to school.

Henry Ward Beecher has come to Indianapolis in his notes by the way, published in The Christian Union. He says: "I went to Indianapolis, Ind., in the Fall of 1849, with a little sick babe in my arms who showed the first symptom of recovery after eating blackberries which I gathered by the way! The city had then a population of 4,000. At no time during my residence did it outreach 5,000. Behold it to-day with 110,000 inhabitants! The Great National Road, which at that time was of great importance, since sunk into forgetfulness, ran through the city and constituted the main street. With the exception of two or three streets there were no ways along which could not be seen the original stumps of the forest. We have bumped against them in a buggy too often not to be well assured of the fact. Here we preached the first real sermon; here, for the first time, we strove against death in behalf a child, and were defeated; here we builded a house and painted it with our own hands; here we had our first garden, and became the bishop of flowers for this diocese; here we first joined the editorial fraternity and edited The Farmer and Gardener; here we had our first full taste of chills and fever; here for the first and last time we waded to church ankle-deep in mud and preached with pantaloons tucked into our boot tops. All is changed now."

Some time ago in Tunis a Sicilian athlete of Rinaldo's circus excited general admiration by his manly beauty and feats of strength. He was in the habit of overcoming a lion during the performance, which, however, was trained to succumb. The Bey of Tunis, hearing of this, sent him an offer of a thousand ducats if he would kill a lion which he possessed. The proposal was accepted, and, on the third day appointed, the Bey and a large company gathered round the pit where the lion was kept. The beast had been three days without food, and was furious. The iron door of the pit was opened, but instead of the athlete, a trembling dog was thrown forward, which timidly took refuge in a corner. The lion, who was at a distance, turned in surprise at the humble intruder. His tail ceased to lash his sides, his roars ceased, and he sat with paws extended, contemplating his victim. Propelling himself forward upon his belly, he finally made a spring. The dog, however, who had watched him with a vigilant eye sprang in an opposite direction. The lion seemed astonished at missing his prey, but after rolling over a few times, made another jump, which was also avoided. Pity for the dog induced the Bey to order a cord to be lowered to him, and while the lion was gyrating preparatory to a new spring, the dog intelligently seized the cord with his teeth and was drawn up. As he ascended, the lion sprang again, but was too late. At this moment the Sicilian appeared, calm and fearless. He was in a rich circus costume, and carried a heavy mace. He took his position in the same corner previously occupied by the dog. At first the lion did not perceive him, but, on turning his eyes expressed a vague inquietude. He slowly withdrew a few steps, watching his enemy with a furtive and sidelong glance. The Sicilian, on the contrary, looked straight in his eye, and watched every movement. The lion evidently had misgivings, but impelled by hunger, sprang upon the man with a terrible roar. The Sicilian slipped aside with agility, and before the paws of the lion touched the ground, a violent blow from the mace upon the head laid him insensible. The mace was raised for the death blow, when the Bey interposed. He offered the man another thousand, for the life of the beast. It was accepted, and the lion was allowed to recover.

Consoling.

It must be some satisfaction to the proprietors of the Nicholl Restaurant to know that it was no common burglar that burglarized their place night before last. He evidently was "way up" in his profession and a good judge of goods for he took none but the best quality of cigars, champagne, etc. It appears he mixed himself a good cocktail, then back into the kitchen, made himself some coffee and picked out the best there was to eat. Mr. Jackson is in doubt now whether advertising pays or not. He says if their place was not so well known they might now be ahead on the money, champagne and cigars that were taken night before last.

REDUCTION IN GAS

Important to Landlords and Gas Consumers.

SAFETY AND ECONOMY.

OFFICE OAKLAND GAS LIGHT CO., September, 16, 1876.

IN CONTINUANCE OF THE POLICY FOLlowed by this Company since its formation, and to lower its rates as warranted, the Oakland Gas Light Company hereby give notice, that from and after the 1st day of October next the price of gas will be reduced to

$4 PER THOUSAND CUBIC FEET.

Considering the value of coal and labor, th limited use of gas and the distance between the points of consumption, Oakland is one of the most cheaply lighted cities in the Union.

Some of the advantages of cheap gas are:

1st. A daily saving in the cost of one of the necessaries of life.

2d. A decrease in the number of fires caused by the use of the dangerous distillates of Petroleum.

3d. A saving of human life by substituting stationary lights for the brittle of lamps.

It is hoped that this further reduction will be favorably accepted by the public, and that the Company will receive many accessions to the number of its consumers.

V. L. EASTLAND,
Superintendent Oakland Gas Light Co.

Veteran Odd Fellows.

In response to a call for a meeting in San Francisco last week of Odd Fellows who have been in membership twenty years and upward, 125 veterans assembled. Nathan Porter, Esq., of Alameda was selected as Chairman and Frank B. Austin Secretary. Mr. Porter, F. G. Rep., and E. D. Farnsworth, F. G. Sire, made a few appropriate remarks explanatory of the object of the meeting, viz: to organize an association of veteran Odd Fellows for the purpose of sociality, and to revive an interest in the Order among those who may be called "veterans." The subject was discussed by a few members, and was unanimously approved. A Committee of five, viz.: E. D. Farnsworth, Frank B. Austin, L. L. Alexander, of this city, Robert Robinson, and Lewis Sober, together with Nathan Porter, were appointed to prepare and report a constitution and by-laws. The Committee have met, and will report the by-laws at the adjourned meeting to be held in Encampment Hall, San Francisco, to-morrow evening.

BOARD OF SUPERVISORS.

Reports—The Sherman Case—Indigent Persons—Industrial School Appropriation, etc.

The Board of Supervisors met to-day, Mr. Burnham in the Chair. Present—Supervisors Alviso, Burnham, Chase, Mason, Marlin, Overacker, and Pumyea.

The minutes of the last meeting were read and approved.

REPORTS.

The viewers appointed for a proposed road in Washington Township, survey No. 1793, commencing at the Mission San Jose and running 2,171 rods, made their report and submitted maps and surveys.

The Pound Master of District No. 11 (Sunol), Augustus Moore, made an itemized report, and the accompanying bills there ordered paid.

Supervisor Pumyea, from the Auditing and Finance Committee, reported in regard to the matter of Dr. Sherman's dismissal, that the Committee thought they could get along more economically without employing a physician regularly.

Supervisor Alviso, said that Mr. Babcock, who had been engaged to strengthen the floor of the Supervisor's room, had put in iron braces, but had suggested that a pillar be placed beneath the floor. Referred to the Building Committee, with power to act.

The Auditing Committee reported adversely to the purchase of additional county maps.

A number of indigent women and one one-legged man applied for relief, all the cases being referred to the Supervisors from the district in which the cases of destitution exist.

FOR THE INDUSTRIAL SCHOOL.

The following communication was received from County Judge S. G. Nye:

To the Board of Supervisors of Alameda County:—Permit me to call your attention to a matter which, perhaps, needs explanation. At the present term of this Court three youthful offenders were indicted and pleaded guilty, one of horse-stealing and two of burglary. These offenses are felonies, and the punishment is imprisonment in the State Prison; except, however, that in case of boys, under 18 years of age, the Court has the discretion to send them to the San Francisco Industrial School, and in such case the county sending them has to pay in advance $15 per month for the term for which they are sentenced.

My policy is to give boys every chance possible for a new start, and not to load them down, when starting in life, with the infamy of having been in State's Prison; for the statistics show that the larger part of all boys once convicted are never before the Courts again.

Were the offenses such that I could imprison them in the County Jail, I should most certainly have done so. As it was I did what I considered the next best thing for the boys, and I think you will concur with me.

The term of each is six months; the amount to be raised is $270.

With Respect,
STEPHEN J. NYE, County Judge.

After the reception of the communication the following resolution was offered and adopted:

Resolved, That the Auditor be directed to draw a warrant in favor of L. C. Morehouse, on the County General Fund, for the sum of $203 47, to pay the expenses of keeping three boys in the Industrial School in San Francisco for six months.

LIMITING THE INDIGENT.

A lengthy discussion or consultation came up on the matter of granting power to act in cases of relief for indigent persons—Supervisor Burnham favoring a limit to such power or discretion.

Supervisor Marlin said that his plan was to place a figure as to the limit and tell the applicant that beyond that they not expect to go.

The James Carroll case also came up. Carroll came into the room on one leg and a crutch, in a state of intoxication. He insisted on talking, and Chairman Burnham ordered him out of the room. It transpired that Carroll had been in the County Hospital for two years; that he had agreed to leave and earn a living if the county would purchase a cork leg for him; the leg was purchased at a cost of $100, when Carroll went to San Francisco and disposed of it in some manner or other. His case was referred to the Hospital Committee, with instructions to inquire after the cork leg.

ROAD SPRINKLING.

A communication from Thomas Malloy, Road Overseer, asking that an order be passed for sprinkling the county road from Brooklyn to San Leandro, at a cost not to exceed $230 per month (not including the cost of water), was referred to Supervisor Mason, to investigate and report.

MISCELLANEOUS.

A petition was received from property-holders asking that a new road be opened from Duncan to Livermore. Viewers were appointed.

On the petition of citizens, H. Mason was appointed a Road Overseer in Eden township.

An anonymous communication was received from Sunol, protesting against the establishment of a School District thereabouts, but as no petition had come in for that purpose it was placed upon the table.

Edward St. John sent in a communication asking to be remunerated for keeping a destitute woman who had been deserted by her husband. Referred to Supervisor Burnham.

UNIVERSITY AVENUE.

Township Assessor Boardman appeared before the Board and said that there was some dispute in regard to University avenue, west of the San Pablo road, in West Berkeley, there being a slight discrepancy between the original survey made by himself for the late Dr. Durant and that subsequently made by County Surveyor Castro, and himself and Mr. Castro had called to explain the matter to the Board. After the explanation was made the Board decided that no action was necessary.

PETITIONS

Were received from various parties as follows:

For the relief of Miss May Thompson. Referred to the Auditing and Finance Committee, to report this afternoon.

From the Trustees of the Mountain View Cemetery, asking the Board to have the road leading to their Cemetery sprinkled. Referred to the same committee.

From Hiram K. Janes, asking the Board to petition the Governor for his pardon from the State's Prison. Referred to the Judiciary Committee.

MISCELLANEOUS.

A requisition from Sheriff Morse for postage-stamps was granted.

The requisition of County Recorder Smith for blank books and authority to have certain books rebound was also granted.

A communication was received from A. Verhave, M. D., setting forth his views as to how the County Hospital should be managed and requesting a consultation with the Board. Referred to the Hospital Committee.

Board took a recess until 1 o'clock P. M.

Night Lights in Stores.

Some of the principal stores, banks and business houses in this city keep a light burning all night, while others do not. The worst of it is that some will burn a gas jet one night and leave the place dark the next. This irregularity gives the police no little trouble and annoyance. If a place is regularly lighted all night, or if it is not lighted after being closed, the police know it—and so do the burglars. If a policeman finds a place which is usually lighted darkened at any hour of the night, he at once inquires the cause; but if a place is lighted one night and left in total darkness the next, an officer is left in doubt whether the light was turned off by the proprietor or by a burglar who may be operating inside. Those leaving money and other valuables in stores should leave gas jets burning when they close.

Condition of Mr Felton.

We are happy to be able to state that Hon. John B. Felton, who was prostrated on Friday evening last by a stroke of paralysis affecting the whole of his right side, is decidedly better to-day, and that his physicians are not only certain that he will survive the shock, but have strong hopes that he will ultimately and entirely recover from the palsy, inasmuch as the paralysis is believed to have been caused by some sort of slight hemorrhage of the right lobe of the brain, and not by any general collapse of the nerves leading from that lobe.

ATHLETIC.

The Nine of the Golden Gate Academy visited Berkeley on Saturday in order to test their skill in base ball against the University Nine, of the University of California. LAKE MERRITT DAM.

Nip and Tuck with the Contractor and the Tide as to which will "Get Away With It."

The so-called Twelfth street "bridge," or dam across the outlet to Lake Merritt, was never in a more deplorable plight than at the present time. Some hundreds (we would probably not miss the mark much if we should should say thousands) of dollars have recently been expended in repairing the dam, and yet the tide is carrying it off by tons every day. Nearly all of the large square timber piles driven along the lower side of the dam to strengthen it have given way, and the barge moored some weeks ago at the south side walk and built upon has backed off with the departing dam and its foundation of slum until it is twenty feet from the nearest dry land. The contractor, apparently dispairing of holding the dam, is filling in brush along the lower side as if to make a weir for the purpose of securing all the fish in Lake Merritt when the dam shall finally disappear and let all the water out of the lake. Something ought to be done at once toward securing all the structure and placing it upon a firm foundation, for it is a waste of money to "repair it" as it has been almost incessantly repaired for the past year or so.

Meat and Drink.

The water furnished Oakland from Lake Chabot by the Contra Costa Water Company rivals, if it does not surpass, that of Spring Valley in the number and prodigious length and size of the animalcula which it contains. In Bowman's drug store, under the TRIBUNE office, we yesterday saw a large tumbler full of this water, freshly drawn from a hydrant, which contained nearly half a teaspoonful of little white wrigglers, varying in length from one-eighth to nearly one-half inch in length. They were as lively and playful as young trout, and when in a quiet state resembled in appearance a little thread of flesh soaked in water until it becomes of a pure white color.

Revival at the Methodist Church.

The Rev. Wm. Taylor, well known as Father Taylor, yesterday began one week's labors in the First Methodist Church of this city. The attendance was large, especially in the evening, there being scarcely an available seat in the capacious auditorium. Last evening the speaker took for the subject "Turn ye Turn ye for ye will die." Father Taylor is very deliberate in his style, he is a clear reasoner—appeals to the conscience of his hearers and is sure to make an impression. Inquiry meetings followed both services. Several to use the term of revivalists "were anxious seekers." This evening Mr. Taylor speaks, also at 10:30 A. M. and 7:30 P. M. daily for this week. The public generally are invited.

Black Eyes and Knives.

The large number of people who attended the several picnics on this side of the bay yesterday kept sober and were unusually well behaved, except a large collection of San Francisco hoodlums who made a descent upon Zimmerman's Gardens, in this city, where a party of Germans were having a social time. The hoodlums were not long in getting up a row, and they got a very lively one—in fact, a row that was too much for them. A number of eyes were soon bordered with black and blue rings, and the fight closed with a grand foot race which was kept up for several blocks—the man who brought up the rear having a 15-inch Bowie knife in his hand.

Mexican Veterans.

The old gray-beards, whose valor helped win for us California, held a meeting in this city on Saturday evening and adopted a Constitution and By-Laws similar to those adopted by their comrades of San Francisco, and decided upon the name "The Associated Veterans of Mexican War of Alameda and Contra Costa Counties." Adam Fath, a German farmer of Livermore, was admitted to membership. The Association proposes to meet but three times a year—during the first week of each term of the Third District Court in and for this county, so as to accommodate country members.

Died of a Broken Heart.

Ah Gong, a Chinese lad of nineteen summers, who had been for some time a servant in a white family in this city, died on Saturday afternoon of a broken heart, superinduced by unrequited love. He was buried at 9 o'clock this morning. He recently fell desperately in love with an almond-eyed maiden from his own native city of Hong Kong, but she spurned his suit, and he pined away and died. The most singular fact connected with his sad fate is that two of his cousins, one aged twenty and the other twenty-four, preceded him to the grave from the same cause.

New Yacht Club.

A new yacht club has been formed in San Francisco to navigate the waters of the bay. It is called the "Ocean Pearl Yacht Club," and has elected the following officers for the ensuing year: Commodore, Charles P. Winslow; Vice-Commodore, Joseph J. Dunne; President, Richard Doolan, Vice-President, Peter F. Dunne; Secretary, Albert Whittle; Treasurer, Clarence Brant; Sergeant-at-Arms, Henry Fisher.

Railroad Matters.

The track of the Northern Railway has been laid from this city to Point Conchal out, the bridges over San Pablo and Wild Cat creeks having been finished last week, that over the San Pablo being 126, and that over the Wild Cat 85 feet long. The track of the Southern Pacific will be completed to Fort Yuma to-day, thus placing Oakland in direct communication with the navigable waters of the Colorado.

DR. R. WOODS, OCULIST AND Aurist, formerly at the corner of Ninth and Washington streets, has removed his office to the new brick block on the northwest corner of Seventh and Washington streets, Oakland.

The Russian Manifesto.

LONDON, April 23d.—A Times Vienna correspondent says: The Russian manifesto is not likely to be issued before the Czar's return from Kischeneff, April 29th. The same correspondent repeats the report that Russia's circular note has been dispatched by special couriers. He adds: "However this may be, the note has not been received here." The conclusion is that there is to be a respite of about a week. Russia's reasons for this delay seem rather complex. The apparent reason is that her preparations are not quite complete.

CONSTANTINOPLE, April 23d.—The Russian Charge d'Affaires and the staff of the Russian Embassy and Consulate will leave Constantinople this evening for Odessa.

Mortality in San Francisco.

The deaths recorded at the San Francisco Health Office last week numbered 108, two less than in the preceding seven days. The disparity between the sexes in the mortality list is not so great as usual, 59 being males and 49 females; but the sacrifice of children is still lamentable, as many as 48 of the decedents being under five years of age. Small-pox has ceased to be epidemic. Diphtheria, however, continues to make its presence felt in every ward. There were 14 deaths from this cause last week. Phthisis carried off 17 victims, encephalites 7, innition 6, and pneumonia 6. There were only two deaths from small-pox.

U. S. Senator Coming.

Hon. Simon B. Conover, ex-State Treasurer of, and now United States Senator from Florida, accompanied by his wife, who is a most charming and accomplished lady, is a passenger by the overland train due here this afternoon. As Senator Conover has some warm personal friends residing in Oakland, the chances are that he will spend most of his time in this part of the State in this city.

Trial of Edwin Hunt.

Jumbling Judges.

The way our contemporaries, on both sides of the bay, have been "mixing up and jumbling" the County Judges round about the Golden Gate for the past few days is appalling. One of the San Francisco papers announced that "owing to the absence of Judge Myrick from the city, Judge Almy, County and Probate Judge of Alameda county, presided in the Probate Court on Friday," and yesterday our morning contemporary on this side announced that "in the absence of Judge Myrick, Judge Nye of Alameda presided over the San Francisco Probate Court on Friday." The fact is, that owing to the absence of Judge Myrick from San Francisco. Judge Almy, County and Probate Judge of Marin county, presided in the San Francisco Probate Court on Friday, and will continue to do so until Thursday next.

THROUGH TEARS.

An Artist toiled over his pictures—
He labored by night and by day.
He struggled for glory and honor;
But the world—it had nothing to say.
His walls were ablaze with the splendors
We see in the beautiful skies;
But the world beheld only the colors
That were made out of chemical dyes.

Time sped. And he lived, loved, and suffered;
He passed through the valley of grief.
Again he toiled over his canvas,
Since in labor alone was relief.
It showed not the splendor of colors
Of those of his earlier years;
But the world—the world bowed down before it,
Because it was painted with tears.

A Poet was gifted with Genius;
And he sang, and he sang all the days.
He wrote for the praise of the people,
But the people accorded no praise.
O his songs were as blithe as the morning,
As sweet as the music of birds;
But the world had no homage to offer,
Because they were nothing but words.

Time sped. And the Poet, through sorrow,
Became like his suffering kind.
Again he toiled over his poems,
To lighten the grief of his mind.
They were not so flowing and rhythmic
As those of his earlier years;
But the world—lo! it offered its homage,
Because they were written in tears.

So ever the price must be given
By those seeking glory in Art.
So ever the world is rejoicing
The grief-stricken, suffering heart.
The happy must ever be humble;
Ambition must wait for the years,
Ever hoping to win the approval
Of a world that looks on through its tears.

TEETH!

CELLULOID is certainly the most beautiful material that is used as a base for artificial teeth, and in order to introduce it to the public more generally I now offer to the people of Oakland and vicinity 50 sets of teeth at $10 each. Any person getting a celluloid plate from me and afterward displeased with it, may return it and get a new plate or the money for it. I am merely following the example of others who have had the most gratifying success with the use of celluloid. As only 50 sets will be made for the above price per set; it would be well for those requiring artificial teeth to call at once.

Read following reports and apply to R. C. GASKILL, Treasurer, Office at Wells, Fargo & Co.'s, Ninth street, Oakland.

Report of Professor J. M. ROBERTSON.

GENTLEMEN:—In presenting a synopsis on the appearance of your land as to the existence of its carboniferous deposits and the extent of the COAL fields, and what outlays may be necessary, I now give you according to agreement a general report thereon.

I find it decidedly of a carboniferous nature. There is nothing of the inorganic structure as you ascend the mountain to warrant the existence of a carboniferous epoch, until you reach the out-croppings of shale on your own land where the first tunnel was commenced, and had this tunnel been constructed in a proper manner, your coal measures would have been developed without the necessity of opening a tunnel on the western end of the land, where the present workings are being carried on.

On examining the carboniferous fields from east to west, I find tracings of coal the whole length of the ground, some on the surface and others in the gulches, formed by washings and denudation; here the strata are well defined. The course or trend of the measures are seemingly east and west, with a dip to the north from the angle of 40° to 60°. *These calciferous sandstones and coal measures promise to be in large quantities,* to what extent at present it is impossible to say, until a thorough survey and superficial opening has been made.

Then we may more certainly conclude what extent of ground these measures cover and the number of stratas. Nevertheless the ground has every possible showing that *the coal basins are extensive.* How far they extend in depth it would be impossible to assert positively.

Their course appears to lie from west to east and they alternate with beds of silicious sandstone, calcareous sandstone, carboniferous shale, magnesian limestone, some ironstone and clayey marls. Associated with these are fossils mixed with bituminous shales, such as the family of Acephalees (oysters), and ammonites, the extinct order of Mollusca, these belonging to the carboniferous period. These fossils and superincumbent strata would warrant me in assuming that an immense estuary once existed where the coal measures now crop out, and perhaps extended beyond MOUNT DIABLO.

The extent of this coal formation would seem to conform with an extended estuary which had been washed by the ocean, as these fossils which are found in the shales and sandstone are littoral species belonging to the coast of California.

With these remarks I subscribe respectfully,

J. M. ROBERTSON,
Chemist and Geologist.

S. N. PUTMAN Esq., President Oakland Coal Mining Company.

DEAR SIR:—Referring to the above report of Professor Robertson, we can corroborate all he says and more, for *we expended over ten thousand dollars in* the 720 feet tunnel, which you are about to complete, and nothing but our unexpected financial embarrassment prevented us from fully developing the coal beds which we know exist in your land. We have taken out coal of a good quality—and burned it while the Mine was in our possession.

Yours truly,

T. H. HATCH,
R. M. BRANSON.
